Christmas Project
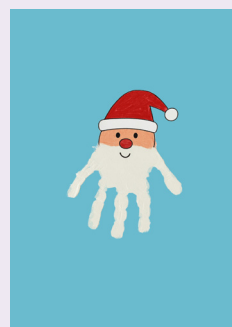

1. For the best results, create the artwork in class. The better the design the more funding your school will generate.

2. Please use the design sheets provided as we use a specific weight of paper which helps us create the best scan possible.

3. The designs sheets are ALL unique. Each one has a unique pupil number printed in the top right corner. Please do not photocopy the design sheets. If you need more sheets, please contact your project organiser.

4. Fill the page with your design and be bold with your colours. Small lone hand prints in the middle of A4 do not reproduce well.

5. We do not enlarge images.

6. Return your design sheets to your project organiser.

7. All orders will be returned to your school project organiser for distribution.

DESIGN TIPS

Original design using pastel colours.

The pastel colours will print like this.

SOLUTION
Use bold colours for backgrounds.

Original design with important wording close to the edge.

The wording will be cut off.

SOLUTION
Keep a clear edge around the design, please note any borders drawn will be shown on the final design.

Original design using very light pencil.

The design will disappear!

SOLUTION
If using pencil, use soft pencils such as 4B.

Original design does not fill the page.

The design will look small when printed on the products.

SOLUTION
Fill the page with the design.

MEDIA

FILL THE PAGE
Fill the page as much as possible as this will create the best results. Please ensure you keep any important text or images away from the edges!

We DO NOT enlarge images.

COLLAGE
We CANNOT process collage. Please avoid sticking anything such as googly eyes, pasta and cotton wool.

BE BOLD
Use bright colours.. Water based paints and felt tips work well. Hard pencil, charcoal and chalks do not work well.

HOLD THE SPARKLE
Please do not use glitter as it clogs up our scanners and transfers to other designs.

AVOID A BLIZZARD
White paint on a white background does not scan, so please avoid white snow or hand prints on white paper. It will disappear!

KEEP IT CLEAR
Avoid the edges of the page with important text or images. Please do not draw a border if you do not want it printed on you design. We cannot remove borders.
